

Preparing for a Hurricane or Severe Weather

What to do ahead of time

- **If you choose to stay at home**, have a plan that includes getting your home and yard ready, preparing a safe area in your home (such as an interior closet or bathroom) and stocking up on emergency supplies, food and water.
- **If you choose to go to a shelter**, know where the closest one is. If you have pets, get a copy of their immunization record and have food and water you can take with you. If you or a loved one has special needs, register with the county at 352-343-9420. Prepare shelter kits for your family (see below).
- **Get a NOAA weather alert radio.**
- **Fill your car's gas tank.**

Clermont-area shelters

1. **Lost Lake Elementary School**
1901 Johns Lake Road
Special needs & pet-friendly
2. **Real Life Christian Church**
1501 Steve's Road
