

# REMEMBERING WHEN

A FREE FIRE AND FALL PREVENTION PROGRAM  
FOR OLDER ADULTS

## DID YOU KNOW?

According to the National Fire Protection Agency (NFPA),  
older adults are twice as likely to die from fires or falls.

at the Clermont Arts & Recreation Center*

*"Remembering When"* is a program that teaches the community how to identify specific dangers, such as space heaters too close to fire ignition sources, loose area rugs and clutter that could cause falls, proper lighting between bedrooms and bathrooms, missing safety equipment like bathroom grab bars, and smoke and carbon monoxide detectors that don't work.
